

5G Industry applications Training

This course describes the basic knowledge and typical applications of 5G industry applications.

This training will allow you to :

- Understand the driving forces and development trends of 5G.
- Understand 5G network application scenarios, protocols, standards, and industry progress.
- Understand the network challenges of the future.
- Understand the requirements, solutions, and cases of typical 5G industry applications(5G Smart Power Grid, 5G Smart Healthcare, 5G Smart City, etc.).
- Understand typical business models.

Audience

Everyone

Duration

1h30

Content of the Training:

- 1) 5G Service Transformation**
- 2) 5G Industry Application-Live Broadcast**
- 3) 5G Smart Power Grid**
- 4) 5G Smart Healthcare**
- 5) 5G Industry Application-Security**
- 6) 5G Smart City**
- 7) 5G Business Models**
